CAREER VISION STATEMENT

My priority is to work diligently with full determination. I like to work in a competitive working environment that leads to contribute positively to the best of my own ability and towards the greater development and benefit of students as well of institution. I am interested in faculty position that strongly integrates teaching and research to develop scholarship for academia. As a student of social science I would like to explore new multidisciplinary connections in order to have better society. I would like to engaging students and helping them to develop knowledge, insights, problem solving skills, self-confidence, self-efficacy, interpersonal dynamics, peer cultures and a passion for learning and exploration in order to promote realization of the objectives of the course.

To lead in Innovation, Advancement and Capacity building with my Co- Colleagues and Students in Social research to contribute to the Vision of the organisation by making best use of my educational ability, skills, efforts and experience.
